## Join a Transformative OA Membership Model

Luminos is a unique open access model from the University of California Press. Through Luminos libraries can help make important works in the humanities and social sciences freely accessible to every reader, everywhere. Membership fees are used to directly cover the costs of publishing around 45 titles per year, with any surplus added to an author waiver fund to support authors in getting their research out there.

### Become a member of a unique OA model

- Luminos' OA model means both the benefits and costs of Open Access are shared among stakeholder communities, creating a more sustainable ecosystem for publishing scholarly works in the humanities and social sciences
- The selection and review processes for content remain the same as in UC Press's traditional program; the same exacting criteria and peer review standards apply
- Authors at Luminos Member Library institutions receive discounts on Title Publication Fees
- Support for successful Open Access models helps remove barriers to access for important scholarly work, including levelling the playing field between researchers in high- and low-income countries
