

# The Open Commons of Phenomenology

## The Open Research Infrastructure for Phenomenology

**The Open Commons of Phenomenology** is an online research platform which is bringing Open Access to scholarly materials and resources in the field of phenomenology. This new initiative, led by renowned scholars in the field, is building a comprehensive corpus of phenomenological sources.

*"The Open Commons is a much-needed venue, and is actually overdue. I wholeheartedly support this project"*

Prof. Sebastian Luft, Marquette University

## A Key Digital Resource for Phenomenology

### Full Corpus of Phenomenology

- **250,000+** references
- Structured bibliographies of leading scholars and historical figures
- Links to full texts through DOIs
- Detailed metadata with controlled indexing

### Digital Tools & Workspace

- Professional profile page for researchers
- Management of all research data (conferences, courses, references)
- Annotating, visualising, and sharing tools

### Open Access Publishing

- **4** journals (Gold, **APC free**)
- Digital edition in TEI-XML of Husserliana Series (30 volumes)
- OCR-digitisation of **500 rare books**
- Academic blogging platform

### Sustainable Open Infrastructure

- Embedded in institutions and archives
- Public data licensed under CC-BY-NC
- Standard export formats
- Not for profit

## Benefits for Libraries

As a supporting library you'll receive personalised technical support offered to five of your researchers to design and manage blogs or conference websites and to strengthen the visibility of their work, a membership in the Open Commons of Phenomenology Library Board, and you'll benefit from standardized open data management in phenomenology.

## Pricing Structure

**Price per year over a period of 3 years. (Price excl. VAT)**

\$1,180 // €1,000 // £880
