

# IntechOpen Engineering

## A New Opportunity for OA Publishing in Engineering

**IntechOpen** is a leading global publisher of Books within the fields of Science, Technology and Medicine. They are the preferred choice of over 60,000 authors worldwide. Their community of more than 108,500 IntechOpen Authors and Academic Editors was founded for the scientists, by the scientists. Their authors range from Nobel Prize winners to up-and-coming researchers at the cutting edge of scientific discovery.

### The Cooperative Model

Together IntechOpen and KU plan to make about **255 Frontlist books** in the **field of Engineering** available Open Access. The program will include authors from high-quality institutes around the world, from the Fukushima Renewable Energy Institute to Stanford University. IntechOpen will publish their cutting-edge research in monographs and series editions on topics as broad as artificial intelligence and as focused as smartgrids.

### Benefits for Libraries

With the support of 100 libraries at the level 2 pledging price, the complete collection can be unatched resulting in all titles becoming available **Open Access free of any publication fees for researchers**. In addition, authors from participating institutions contributing to any other IntechOpen book receive a discount depending on the support of the library.
