Welcome

Dear KU supporters around the world,

Welcome to the overview of our 8th pledging round. 2020 has given us a flavor of an alternative world and the fragility of our well-being. This makes us at KU strive even more for research-based innovation that secures a positive, sustainable way of life. As always, we are grateful for your support in this endeavor. Our usage statistics indicate that we are on the right track: Last year, user interactions with the Open Access (OA) content unlatched with your help increased by 28%. Since 2016, the year we began tracking usage, more than 12 million downloads have taken place!

The core of what KU does is innovating OA publishing with a focus on sustainable business models to support you in moving from paywalled into an OA world. In the 2021 pledging round, we offer 30 book and journal packages you can invest in. We also build on last season’s successes and offer subject-based collections, an approach you welcomed in 2020, as well as introduce a brand new ‘topical’ package that addresses one of today’s foremost challenges: climate change. Comprising 20 frontlist books from eight publishers, KU Focus Collection: Climate Change is designed to help students, faculty, and everybody around the globe to further insights into this important topic.

In addition, we are expanding our efforts to reduce frictions in the adoption of OA. With Oable—KU’s cockpit for managing APCs, Read & Publish deals and other types of your agreements between libraries and publishers—we offer an innovative solution to a mounting problem. You can get a glimpse of Oable’s distinct features at www.oable.org.

Also good to know: After a rigorous and long audit, KU became a certified B Corporation (BCorp) in 2020, which means we are recognized for meeting high levels of social responsibility in balance with the needs our stakeholders.

We at KU are immensely grateful for your continued support of our common cause – making publishing and reading more open and equitable.

Yours,

Alexandra, Amir, Bob, Carolina, Catherine, Elaine, Laurens, Max, Mirela, Olaf, Pablo, Philipp, Udit, Wilson, and Sven

www.knowledgeunlatched.org/ku-select-2022
For the first time in this year’s pledging season, we wanted to offer a special collection containing books from several publishers around one single topical, cutting-edge theme and asked our library partners for their opinion as to which topic they would find most relevant to users both at their own institution and worldwide.

The topics to choose from were:

- Climate Change
- Equality
- Digitality
- Gender Studies

We received a very positive response with almost 80 anonymised votes. A clear majority of votes for Climate Change made this the clear winner for our KU Focus Collection and the members of the KU Selection Committee (consisting of over 200 librarians from all over the world) voted on the most relevant titles from the submissions made by our partner publishers.

The new Focus collection sits alongside KU Select 2022 HSS Books, is not part of that actual collection.

We would be interested in hearing your feedback on our new Focus Collection and to learning of your recommendations for future Focus topics.
