KNOWLEDGE UNLATCHED
TEN YEARS OF OPEN ACCESS (2013 - 2023)

PLEDGING 2023
THE ANNIVERSARY BROCHURE
Dear libraries and KU partners,

Welcome to the tenth anniversary brochure for KU's pledging round! It was exactly ten years ago when KU launched its library crowdfunding initiative with the aim of publishing 28 scholarly monographs in Humanities and Social Sciences. In that year, nearly 300 libraries worldwide came together to support KU in unlatching the selected book titles, thereby eliminating fees associated with publishing and accessing them for authors and readers. Today, we are proud to say that we have gone well beyond our initial goals and have to date unlatched over 4,000 peer-reviewed monographs and 50 journals by over 100 publishers.

This year's brochure may appear familiar at first glance, with its color-coding and organization by discipline, similar to the previous years. However, a closer look reveals a significant overhaul of our legacy initiative, KU Select. This entire multi-disciplinary collection now focuses on frontlist titles for seven select Sustainable Development Goals (SDGs): No Poverty, SDG 1; Good Health and Well-being, SDG 3; Gender Equality, SDG 5; Decent Work and Economic Growth, SDG 8; Reduced Inequalities, SDG 10; Climate Action, SDG 13; and Peace, Justice, and Strong Institutions, SDG 16.

Our mission is to align our efforts with the mission of the UN's SDGs, which can only be achieved through open access to information and knowledge. We believe that Open Access (OA) publishing is crucial to realizing these goals. In the past couple of years, we have been unlatching titles aligned with SDGs, particularly on Climate Action and Global Health. However, this year, we are taking our commitment to SDG content a step further and have restructured our legacy collection to reflect the current issues and to ensure that the content we unlatch is both timely and relevant.

As we celebrate ten years of making a difference in OA, we would like to express our sincere gratitude to the countless publishers who have helped us build meaningful collections over the years, and to the hundreds of libraries worldwide that continue to support our efforts.

Yours,
The KU Team
What information can I find in this Brochure?

Overview of the programs that are part of this subject collection

Defines the number of content items to be made Open Access provided the pledging target is reached

Pledging commitment required in years

Annual pledging price per collection. Multi-year commitments can also be paid in one sum upfront

Pledging institutions receive free access to all of the content, even if the pledging target is not reached

Additional services which KU applies to all content items which are part of the collection, at no extra cost to institutions
Important changes in KU’s tenth year of pledging

1. We are moving away from our discipline-specific approach and broadening our scope to include HSS subjects related to Sustainable Development Goals (SDGs). This change allows us to focus on timely topics that matter to researchers and institutions, since SDGs provide a commonly agreed upon blueprint for promoting peace and prosperity for today’s society and the planet.

2. We are retaining up to 10% of our titles for independent and early career scholars, ensuring that fresh voices and diverse perspectives remain in our collection. This is an essential step towards fostering a more inclusive and equitable academic community.

3. We are only focusing on frontlist titles, so that readers worldwide will have access to up-to-date research and scholarship.

- Gender Equality, SDG 5
- Decent Work and Economic Growth, SDG 8

KU is pleased to announce the renewal of this important OA initiative into a new third round and invite your institution to support LSP once again.

The collection will continue covering the major subdisciplines of linguistics — from laboratory phonology to discourse studies and translation research to second language acquisition.

LSP is the leading academic-led OA initiative in linguistics, and much of its success is due to the active community of linguists worldwide. Thanks to the cooperative pledging model of institutional support, LSP authors face no publishing costs.

Nearly 1,100 academics from all over the world have published with LSP since the initiative started in 2017.

LSP includes over 500 editorial board members on all continents, except Antarctica.

Over 115 institutions worldwide funded the initiative in the first two rounds of pledging.

The usage of LSP books continues to grow significantly. In 2022, PDFs of LSP titles were downloaded nearly 425,000 times (nearly 112,000 more than in 2021), for a total of about 1,900,000 downloads.

Researchers can continue to submit and publish OA without any Book Processing Charges (BPCs).

Language Science Press
